

The Vision Plus range of Antennas and accessories represent proven quality, innovation and design.

All supported with great customer service and value for money.

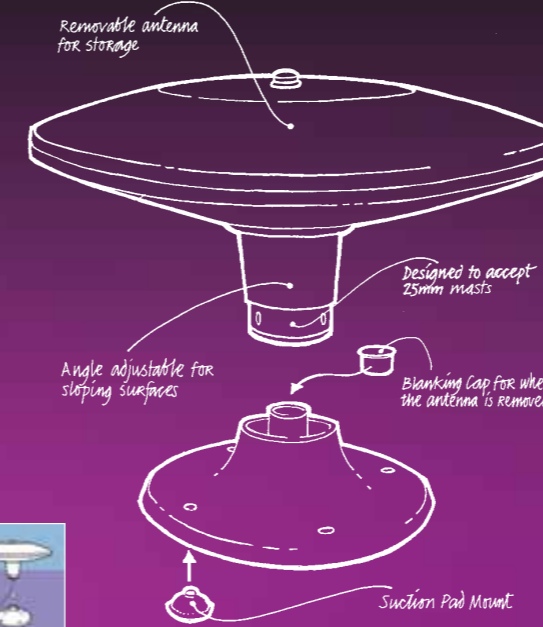

STATUS 350 & 355 Digital Antenna Systems

Our most successful omni-directional antenna with its distinctive profile, high quality, powerful performance and versatility ensures it remains the market favourite.

Two models, the 350 for UHF TV only via the VP2 amplifier and the 355 with FM radio capabilities via the VP3 Amplifier*

- Designed for digital television signals & FM radio* reception
- Receives horizontal and vertical signals through 360 degrees
- Incorporates a power amplifier with variable gain adjustment
- Standard fitting options, roof or mast mount with optional sucker mount
- Angle adjustable, allowing level mounting on a sloping surface
- Easily removable antenna dome

Frequency: TV 470-790 Mhz
FM Radio 88-108 Mhz (355 only)
Dimensions: 315dia x 180mm
Coaxial Cable: 5 metres & plug

STATUS 570 & 580 Digital Antenna Systems

Building on the success of the market-leading Status 550. Our NEW flagship model has a lower profile, is of lighter construction with a smaller footprint than its predecessor yet is an even stronger performer.

Both models are based on a brand new LTE Protect dipole array with improved performance and efficiencies to make our best model even better.

The 580 model has an extra-long mast and wall bracket to allow raising above and obstacles for improved performance.

- Roof mounted amplified antenna with integrated mast
- Powerful Digital UHF, FM & DAB performance
- Integrated TV Signal Finder and amplifier specifically for mobile use
- Incorporates signal gain adjustment and triple TV outlets
- Dedicated Radio outlet for FM and DAB Radio
- Height, direction & orientation fully adjustable from inside
- Cants 90 degrees to receive vertical & horizontal signals
- Incorporates internal, mast-mounted polarisation gauge
- Compact design of the 570 allows installation in most overhead lockers
- Very low profile, with head height of only 108mm

Frequency: TV 470-790 Mhz
FM Radio 88-108 Mhz (355 only)
DAB Radio 175-230 Mhz

Dimensions: 412 x 348 x 108mm
Mast intrusion into locker 305-280mm
Amplifier & Signal Finder 157 x 45 x 29mm

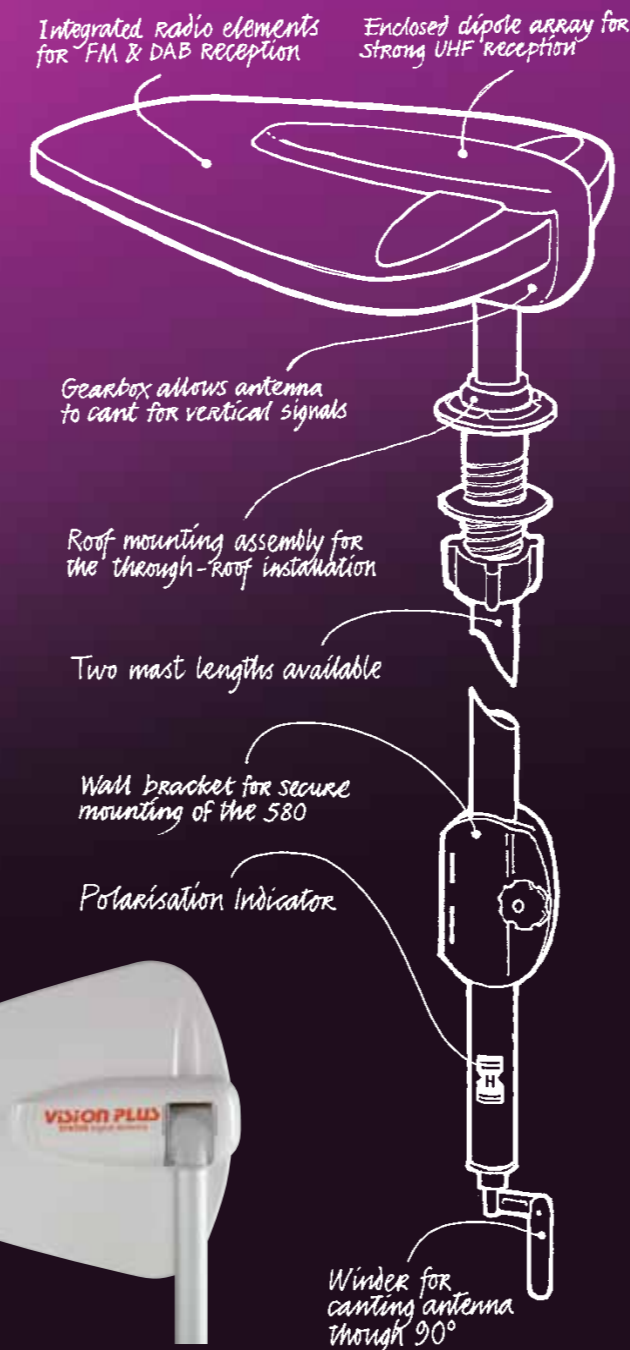

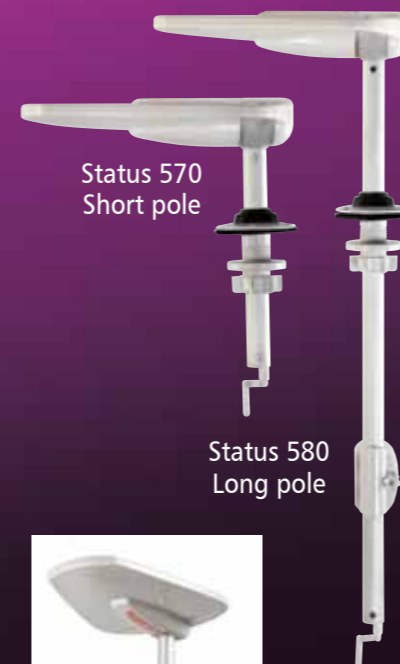

IMAGE 450 Digital Antenna

The IMAGE 450 is a new concept in directional antennas.

Drawing on the design of the Status Antenna, the enclosed LTE Protect log periodic design provides powerful performance, comparable with much larger antennas.

The 450 Antenna will receive all UHF Digital TV. *Utilising the optional VP3 or VP5 amplifier, or suitable diplexer, will receive FM & DAB Radio.

For use with all the masts in the Vision Plus Range or any 25 mm diameter mast.

Frequency: TV 470-790 Mhz
FM Radio 88-108 Mhz*
DAB Radio 175-230 Mhz*

Dimensions: 412 x 348 x 80mm
Coaxial Cable: 5 metres & plug

IMAGE 420 & 430 Digital Antenna

The IMAGE 420 & 430 semi-enclosed dipoles produce a sleek, stylish profile and performance, comparable with much larger antennas.

The 420 receives all digital TV transmissions whilst the 430 has enhanced TV reception as well as FM Radio.

For use with all the masts in the Vision Plus Range or any 25 mm diameter mast

Frequency: TV 470-790 Mhz
FM Radio 88-108 Mhz (430 Only)

Dimensions: 410L x 330W x 45D mm
Coaxial Cable: 5 metres & plug

COMPACT 260 Digital Antenna System

A UHF Directional directional antenna designed for outdoor and indoor use.

Combined with the Vision Plus VP2 low noise, high gain amplifier, the 260 provides strong performance in medium to poor signal areas.

Being lightweight and compact and supplied with a number of standard fitting options being, suction pad base, pole mount or wall mount, it's the perfect companion where space is an issue.

For use with all the masts in the Vision Plus Range or any 25 mm diameter mast.

Frequency: UHF 470-790 Mhz
Dimensions: 350 x 165 x 70mm
Coaxial Cable: 3 metres & plug

IMAGE 410 Digital Antenna

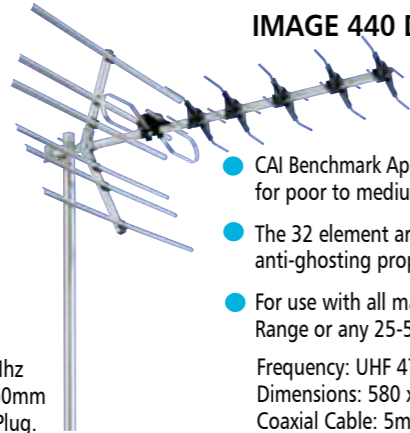

- Our 14 element log periodic design is compact yet provides powerful performance.
- For use with all masts in the Vision Plus Range or any mast manufactured from 25mm diameter tube.

Frequency: UHF 470-790Mhz
Dimensions: 530 x 300 x 60mm
Coaxial Cable: 5metres & Plug.

IMAGE 440 Digital Antenna

- CAI Benchmark Approved high gain antenna for poor to medium reception areas.
- The 32 element array and reflectors superb anti-ghosting properties.
- For use with all masts in the Vision Plus Range or any 25-50 mm diameter mast.

Frequency: UHF 470-790Mhz
Dimensions: 580 x 780 x 70-600mm
Coaxial Cable: 5metres & Plug.

IMAGE 610 Digital Antenna System

A complete antenna system combining:

- LTE Yagi Wideband Digital Antenna
- Multi-Mast with adjustable brackets
- Self-adhesive mounting plates

Frequency: UHF 470-790Mhz
Dimensions: 780 x 290mm
Mast Length: 730mm
Coaxial Cable: 5metres & Plug.

IMAGE 620 Digital Antenna System

A complete antenna system combining:

- IMAGE 420 UHF Digital Antenna
- Jockey Wheel bracket
- Three section mast & ground spike
- Flat Thru window cable, connector & fly lead

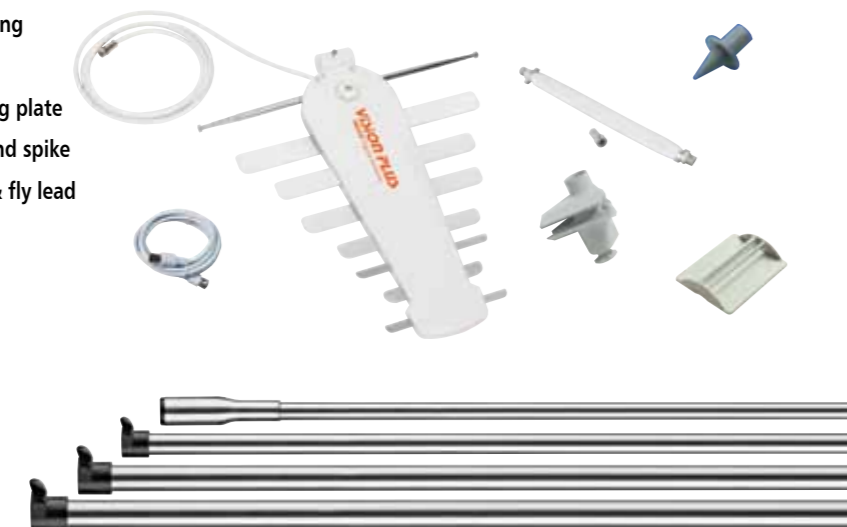

Frequency: UHF 470-790Mhz
Dimensions: 410L x 330W x 45D mm
Mast Length: 2600mm
Coaxial Cable: 5metres & Plug.

IMAGE 630 Antenna System

A complete antenna system combining

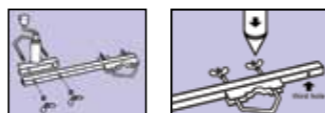

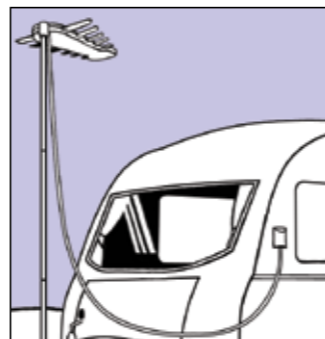

- IMAGE 430 UHF/FM Digital Antenna
- Uni-Bracket & self-adhesive mounting plate
- Four section telescopic mast & ground spike
- Flat Thru window cable, connector & fly lead

Frequency: UHF 470-790Mhz
FM 88-108 Mhz
Dimensions: 410L x 330W x 45D mm
Mast Length: 3450mm
Coaxial Cable: 5metres & Plug.

Jockey Wheel Mast

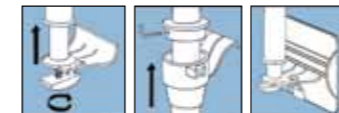

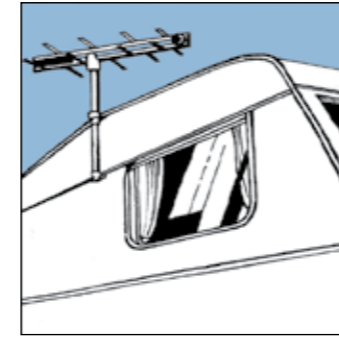

Designed to attach to the caravan jockey wheel or any vertical extrusion up to 55mm in diameter. Complete with 2.6m three section mast & ground spike.

- Secured without the need for drilling
- Two sets of holes accommodates larger A-frames
- Quick and easy assembly when required

Multi-Mast

This compact side mounted mast can attach to various profiles or a vertical surface using the self-adhesive plates supplied. Complete with a single piece 890mm mast.

- Ideal for numerous horizontal profiles.
- Ladders, grab handles or awning channels
- Self-adhesive plates allow many installation options

A-Frame Mast

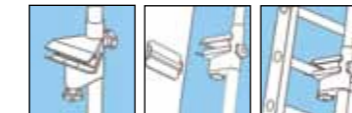

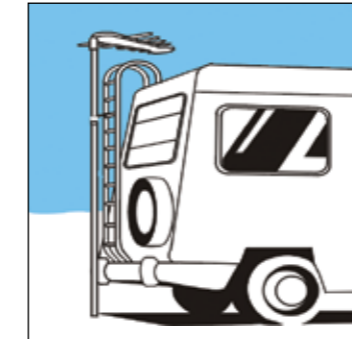

For caravans only, the bracket attaches discretely to the majority of caravan A-Frames. Complete with 2.6m three section mast & ground spike.

- Secured without the need for drilling
- Twin locking bolts for complete security
- Once installed remains in place

Uni-Mast

This versatile bracket clamps a multitude of profiles or any vertical surface using the self-adhesive plates supplied. Complete with 2.6m three section mast & ground spike

- Ideal for numerous horizontal profiles.
- Ladders, grab handles or awning channels
- Clamp Adjusts from 1-35mm

External TV Sockets

Allows the connection of an external antenna and/or satellite to an internal TV point. All connections are protected from the weather by a hinged cover. Complete with 5 meters of coaxial cable.

DVB-T & DVB-S

DVB-T

DVB-S

TV Signal Finders

Our signal finders help you align your TV antenna and/or satellite dish for best reception. The finders connects directly to your antenna and the LED's indicate the signal strength.

DVB-T & DVB-S

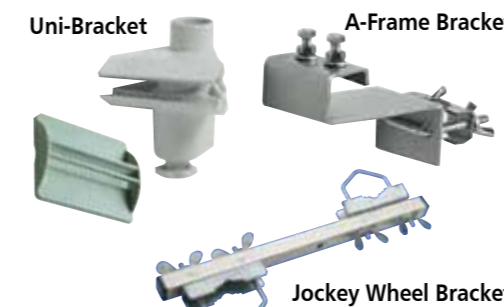

DVB-T

DVB-S

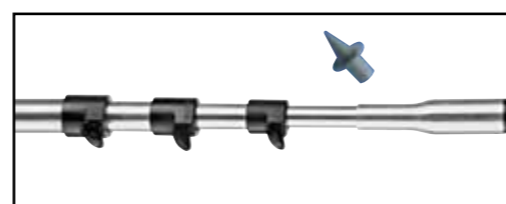

Mast Brackets

All our brackets come as part of a complete mast system above or can be used separately with any 25mm diameter mast.

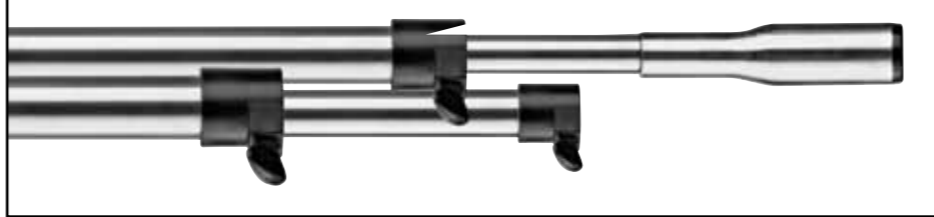

Telescopic Mast

This four section mast comes with a ground spike and is ideal for use with all the Vision Plus mast brackets opposite

- Four section masts extends to 3.5metres
- Only 1.1m when retracted
- Ground spike for soft standing

VP2 UHF TV

VP4 UHF TV & TV Signal Finder

TV Digital Amplifiers

A range of digital wide band amplifiers designed with high gain and low noise capabilities for optimum performance to ensure improved reception for all non-amplified antennas

Signal Finder

- To operate:
- Determine the polarization of the local TV transmitters.
 - Switch on the amplifier
 - Rotate your antenna
 - RED - Keep turning the antenna
 - YELLOW - Slow Down
 - GREEN - TV Signals located

VP3 UHF TV & FM & DAB Radio

VP5 UHF TV & FM & DAB Radio & TV Signal Finder

Portable Digital Televisions

Specially designed for mobile use, our TVs represent proven quality, innovation and design, combined with great customer care and value for money.

- Built-in Free-To-Air HD Satellite Receiver
- Digital FREEVIEW receiver
- Non-reflective Screen
- 12 Volt and Mains powered
- Very low power consumption
- Lightweight and compact design
- Removable carry handle and stand
- USB 'Record & Pause' live TV
- VESA Wall mount facility
- Wide viewing angles
- One Touch Tune facility - OTT

Electronic Radio Antenna

Our 8 section telescopic radio antenna is designed for use with a car style radio to receive AM and FM transmissions. The power supply comes from the radio unit.
